ENGELSK I 7. KLASSE

Jenny:

City Tram Causing Passenger Harm

The City Tram delays are making me really angry,-
You are almost guaranteed to miss the corresponding bus!
Personally, I depend both on the City Tram and the bus and endless times I have found myself walking home because I missed the bus.
The frequent City Tram delays are caused by unplanned stops, due to technical problems.

The politicians have not yet succeeded in creating a solution.
The recent years boost in public transport and huge investments in the City Tram has so far been a disaster due to continued technical issues,
- It is an outrage that the politicians still haven't solved this problem!

Emlyn:

Bus leaves too early!

Sunniva:

Warm Lunches makes you smarter!

We need warm and healthy lunches at school.
Research shows that children and young people perform better at school if they eat healthy and warm lunch meals. For example fish and vegetables, salads, pasta, lasagne would be excellent combined with sufficient time to eat, - an extension of 45 minutes would be good.

Instead, Norwegian children today bring cold lunch meals from home,
- Usually sliced bread and fruit. I propose that warm meals for lunch should be served to all Norwegian school children and students!

The school bus is leaving ahead of schedule causing pupils miss their class. The bus drivers needs to stick to their driving schedule and make sure that the bus needs to follow.

Every morning the bus is suppose to arrive at 07.50 and usually it leaves at 07.47. This is bus number 16 from Nipedalen.

The bus company should ensure that the schedule is followed so the buses don't leave to early!
